Spotlight on 5.3 eLearning Course Enhancements

Page Transitions

- Add page transitions to display effects from page to page.
- Choose Direction and Sequence effect options for each transition.
- Easily add or remove a transition.
- Quickly apply one transition to all pages within a course.

Course Animations

- Add animations to text and images on a course page.
- Choose Direction and Sequence effect options for each animation.
- Easily add or remove an animation.
- Select the timing for each animation.
- Quickly reorder animations.

Flexible Stencils

- Add, split, and remove text or image containers.
- Change the “content type” (for example, change a container from Image to Text or Video).
- Use new adjustment bars to increase or decrease the size of containers.

Embedded Web Videos

- Add web videos to courses by embedding web-based video code into the course page.
